Professional Ethics and Human Values: Introduction and Motivation

Class Instructors:

Dr Chakravarthula Kiran, Prof G Srinivasa Gupta, Ms A Sandhya Rani

Unit 1

Syllabus

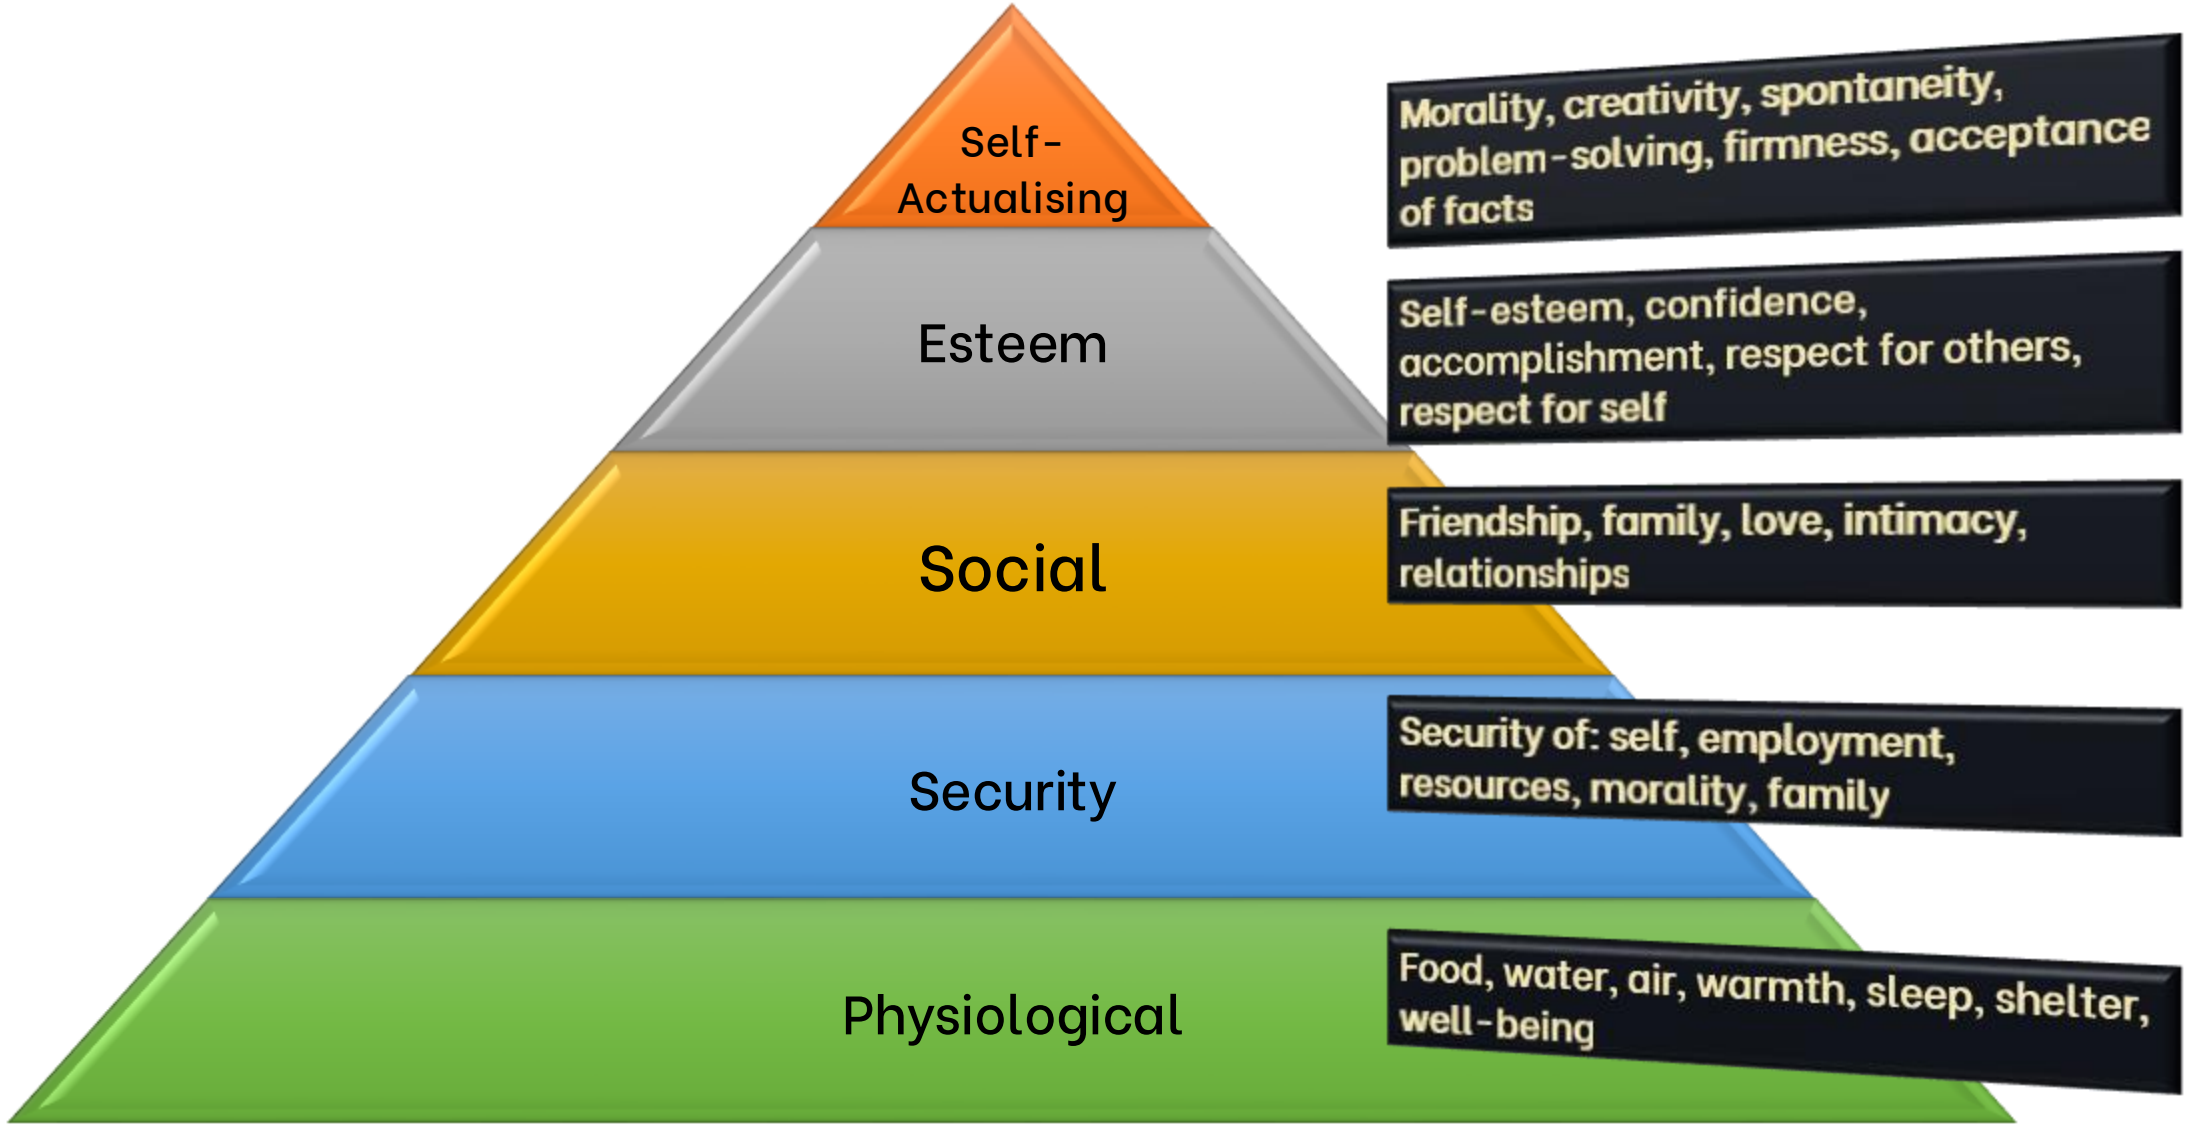

- Definitions: Morals, Values, Ethics; Golden Rule; Maslow's Theory of Needs; Diversity, Equity, Inclusivity, and Accessibility (DEIA); Sustainable Development Goals (SDG)
- Human Values: Universal Human Values, Conventional and Constitutional Values in Indian Ethos, Building Blocks for Moral Persona—Conscientiousness, Integrity, Empathy Morality and Moral Development: Moral Character, Moral Autonomy; Platform vs. Purpose
- Ethicality: Civic Virtue for Ideal Society vs. Anomie; Ethics as basis for Legal Framework; Indian Ethos
- Motivation: Examples and Case Studies of Ethical and Moral Decline in social, business, and professional contexts; Threats to Ethics due to changing technology landscape; Need for protection of Personally Identifiable Information (PII) and Data Privacy; Introduction to Trolley Problem and Discussion on Moral and Ethical Dilemmas; Issues in Decision-making—Value Judgement and Moral Judgement; Ethics in Academics and Research

Definitions and Concepts

Definitions: Morals, Values, Ethics

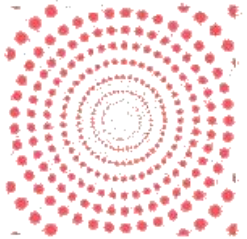

- **Moral:** Principle of right and wrong
- **Values:** The regard that something is held to deserve; the importance, worth, or usefulness of something
- **Ethics:** Moral principles that govern a person's behavior or the conducting of an activity; a set of moral principles, *especially ones relating to or affirming a specified group, field, or form of conduct*
  - Science of conduct
  - Moral philosophy
  - Application of value

Maslow's Hierarchy of Needs

Maslow, A.H., "A Theory of Human Motivation", Psychological Review, 50(4):370–396, 1943

DEIA

DIVERSITY

Diversity is all the ways that people are different and the same at the individual and group levels. Even when people appear the same, they are different. Organizational diversity requires examining and questioning the makeup of a group to ensure that multiple perspectives are represented.

EQUITY

Equity is the fair and just treatment of all members of a community. Equity requires commitment to strategic priorities, resources, respect, and civility, as well as ongoing action and assessment of progress toward achieving specified goals.

ACCESSIBILITY

Accessibility is giving equitable access to everyone along the continuum of human ability and experience. Accessibility encompasses the broader meanings of compliance and refers to how organizations make space for the characteristics that each person brings.

INCLUSION

Inclusion refers to the intentional, ongoing effort to ensure that diverse individuals fully participate in all aspects of organizational work, including decision-making processes.

It also refers to the ways that diverse participants are valued as respected members of an organization and/or community.

https://www.aam-us.org/wp-content/uploads/2018/04/AAM-DEAI-Definitions-Infographic.pdf

Definitions: DEIA

- **Diversity:** The *variety of human experiences, perspectives, and identities*. Diversity can be based on factors such as race, ethnicity, gender, sexual orientation, religion, age, disability, and socioeconomic status.
- **Equity:** The *fair and just distribution of resources and opportunities* in consideration of the different needs and experiences of people to ensure that everyone has an equal chance to succeed.
- **Inclusion:** The act of *welcoming and accepting people from all backgrounds and experiences*. Inclusion is about creating a space where everyone feels safe, respected, and valued.
- **Accessibility:** The practice of ensuring that *all people have equal access to opportunities and resources, regardless of their abilities or disabilities*; requires removing physical and attitudinal barriers that prevent people with disabilities from accessing and participating in society.

https://www.diversitycertification.org/deia-matters/what-is-deia/deia-dictionary

DEIA: Why is it important?

- Societies evolve and are governed with a “default” idea for a person or a group
- Resources, natural and manmade, may be intended for anyone but some groups may be ignored (D), some may not have a share (E), some may have a share but may not be welcomed (I),or some may have a share but may not be able to access (A)
- DEIA policies are a conscious approach to check availability, accessibility, and affordability of resources to all kinds of people, marking equal opportunity and democratic approach

17 SDG IDENTIFIED BY THE UNO

https://www.un.org/sustainabledevelopment/wp-content/uploads/2019/01/SDG_Guidelines_AUG_2019_Final.pdf

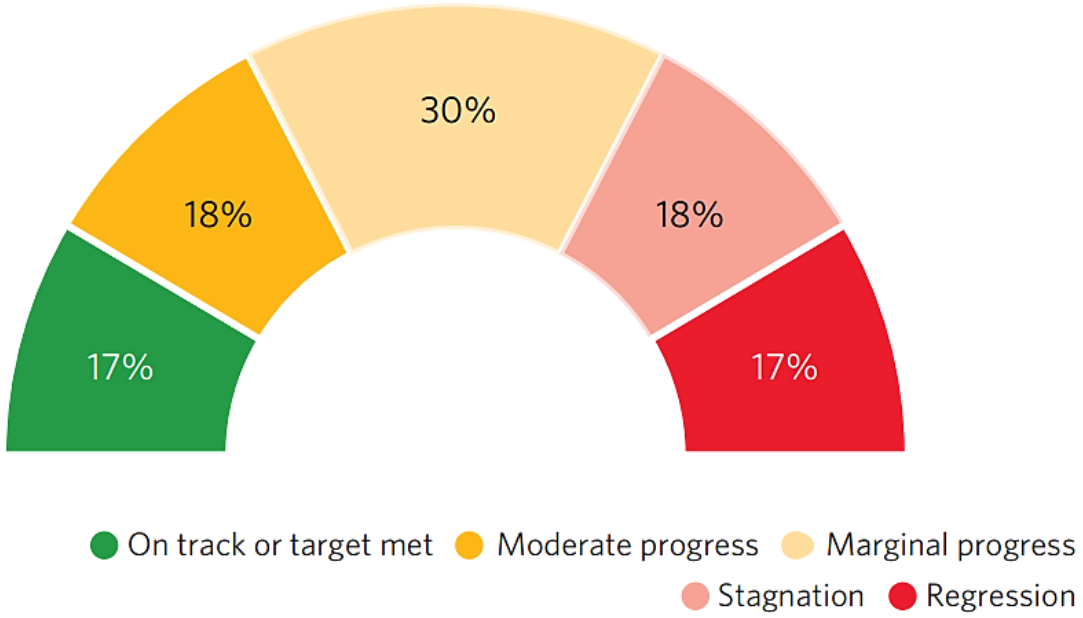

Preamble (Excerpt): "for humanity & planet"

- People
  - We are determined to end poverty and hunger, in all their forms and dimensions, and to ensure that all human beings can fulfil their potential in dignity and equality and in a healthy environment.
- Planet
  - We are determined to protect the planet from degradation, including through sustainable consumption and production, sustainably managing its natural resources and taking urgent action on climate change, so that it can support the needs of the present and future generations.
- Prosperity
  - We are determined to ensure that all human beings can enjoy prosperous and fulfilling lives and that economic, social and technological progress occurs in harmony with nature.
- Peace
  - We are determined to foster peaceful, just and inclusive societies which are free from fear and violence. There can be no sustainable development without peace and no peace without sustainable development.
- Partnership
  - We are determined to mobilize the means required to implement this Agenda through a revitalised Global Partnership for Sustainable Development, based on a spirit of strengthened global solidarity, focussed in particular on the needs of the poorest and most vulnerable and with the participation of all countries, all stakeholders and all people.
  - The interlinkages and integrated nature of the Sustainable Development Goals are of crucial importance in ensuring that the purpose of the new Agenda is realised. If we realize our ambitions across the full extent of the Agenda, the lives of all will be profoundly improved and our world will be transformed for the better.

Human Values

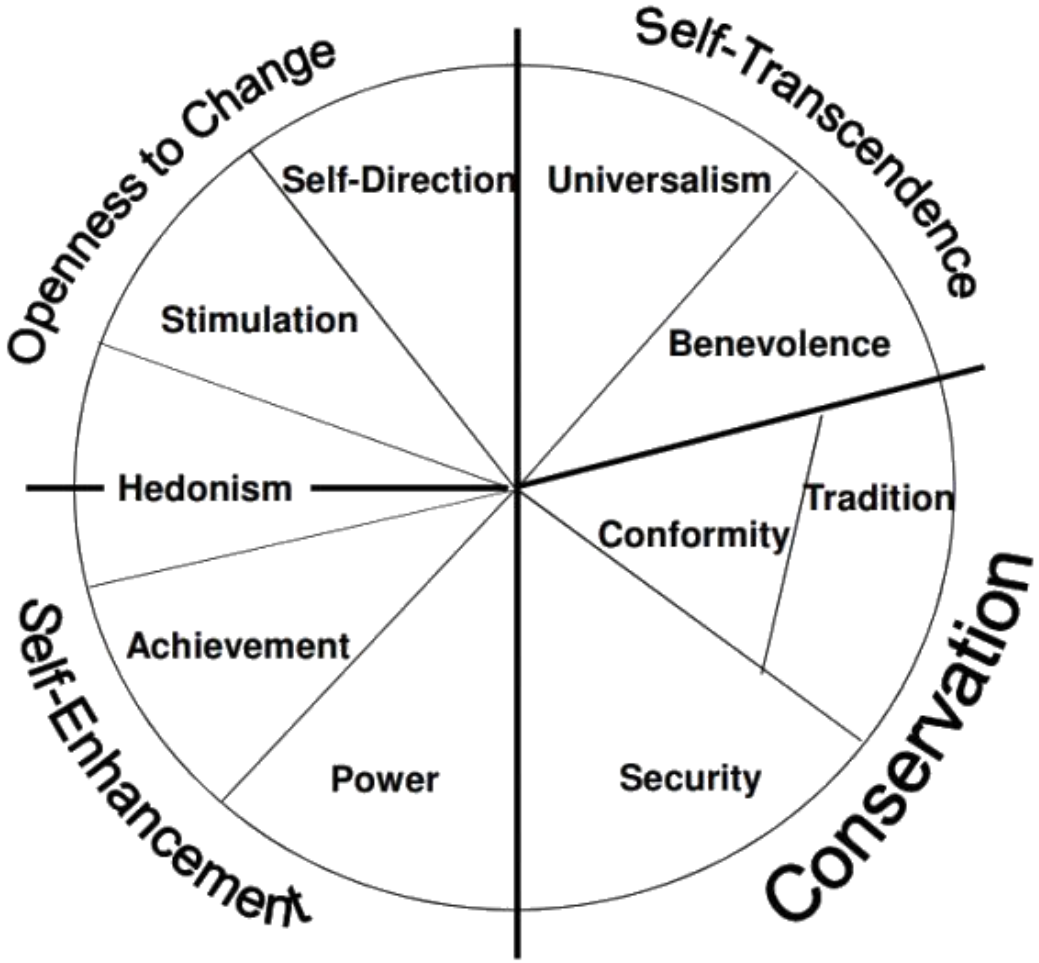

Schwartz's Theory of Basic Human Values

- Based on three categories: our biological needs as individuals, our need to coordinate our actions with others, and the need of groups to survive and flourish.
  - Power: authority; leadership; dominance, social power, wealth
  - Achievement: success; capability; ambition; influence; intelligence; self-respect
  - Hedonism: pleasure; enjoying life
  - Stimulation: daring activities; varied life; exciting life
  - Self-direction: creativity; freedom; independence; curiosity; choosing your own goals
  - Universalism: broadmindedness; wisdom; social justice; equality; a world at peace; a world of beauty; unity with nature; protecting the environment; inner harmony
  - Benevolence: helpfulness; honesty; forgiveness; loyalty; responsibility; friendship
  - Tradition: accepting one's portion in life; humility; devoutness; respect for tradition; moderation
  - Conformity: self-discipline; obedience
  - Security: cleanliness; family security; national security; stability of social order; reciprocation of favours; health; sense of belonging
  - Spirituality: the goal of finding meaning in life

https://en.wikipedia.org/wiki/Theory_of_Basic_Human_Values

Schwartz's Theory of Basic Human Values

- Beliefs linked inextricably to affect. Values become infused with feeling when activated
- Desirable goals that motivate action
- Transcend specific actions and situations, thereby differing from norms and attitudes
- Serve as standards or criteria, guiding the selection or evaluation of actions, policies, people, and events. Choices are conscious and are based on perceived consequences and values but impact of values is not usually conscious, unless they clash
- Ordered by relative importance, forming an ordered system of priorities that characterise them as individuals
- Relative importance of multiple values guides action – attitude/ behaviour is formed through more than one value influencing the action contextually

https://i2s.anu.edu.au/resources/schwartz-theory-basic-values

Shweder's "Big Three of Morality"

- Moral psychology evolves due to:
  - **Autonomy:** Self-interest
  - **Community:** Collective interest of a group
  - **Divinity:** Trust in God/ Religion

Shweder, R. A., Much, N. C., Mahapatra, M., & Park, L. (1997). In A. M. Brandt & P. Rozin (Eds.), Morality and health (p. 119–169). Taylor & Frances/Routledge.

Haidt's Moral Foundations Theory

- Care: cherishing and protecting others; opposite of harm
- Fairness or Proportionality: rendering justice according to shared rules; opposite of cheating
- Loyalty or Ingroup: standing with your group, family, nation; opposite of betrayal
- Authority or Respect: submitting to tradition and legitimate authority; opposite of subversion
- Sanctity or Purity: abhorrence for disgusting things, foods, actions; opposite of degradation
- Liberty: opposite of oppression

https://en.wikipedia.org/wiki/Moral_foundations_theory

Ethical Values

Value	Webster's Descriptor
Civic responsibility	A person's duty, charge or obligation as a citizen
Fairness	Straightforward justice
Honesty	Upright conduct or disposition
Integrity	State of being upright, entire or whole
Mutual Assistance	Reciprocally helping, aiding, supporting
Personal responsibility	A person's duty, charge or obligation as a person
Respect for Others	Proper regard for other individuals, their characters, or reputations
Self-respect	A proper regard for one's own person, character, or reputation
Self-Restraint/Control	Control over oneself, temper, emotions, and desires
Tolerance of Diversity	To put up with or support different kinds of individuals

Obi, S.C., "Teaching ethics to industrial technologists", The Journal of Industrial Technology, 8:18–23 (1992)

Value-based Education: NEP Context

- Value-based education will include the development of humanistic, ethical, constitutional, and universal human values of truth (*satya*), righteous conduct (*dharma*), peace (*shanti*), love (*prem*), nonviolence (*ahimsa*), scientific temper, citizenship values, and also life-skills; lessons in *seva*/service and participation in community service programmes will be considered an integral part of a holistic education.
- As the world is becoming increasingly interconnected, Global Citizenship Education (GCED), a response to contemporary global challenges, will be provided to empower learners to become aware of and understand global issues and to become active promoters of more peaceful, tolerant, inclusive, secure, and sustainable societies.

https://www.mhrd.gov.in/sites/upload_files/mhrd/files/NEP_Final_English_0.pdf

Building Blocks of Personality

- Empathy: forms the foundation to care about others
- Conscientiousness: drives sincere understanding and efforts that urge action
- Integrity: brings together feelings, thoughts, emotions, words, and actions into one whole act
- The Golden Rule: Do not do unto others what you do not want others to do unto you!
  - Found in nearly all religious doctrines and scriptures

Definitions: Conscientiousness, Integrity

- Conscientiousness (అంతఃకరణశుద్ధి): The intention to do the right thing
  - Foundation for autonomous moral concern
  - Leads to integrity
- Integrity (త్రికరణశుద్ధి: మనసా వాచా కర్మణా): Consistency of actions, values, methods, measures, principles, expectations, and outcomes

Definitions: Character, Empathy

- **Character:** The aggregate of features and traits that form the individual nature of some person or thing
- **Empathy:** The ability to imagine oneself in another's place and understand the other's feelings, desires, ideas, and actions

https://languages.oup.com/

Integrity in Action

- Four Tenets
  - Follow the rules
  - Where rules do not exist, use fair judgement ("Golden Rule", Conscientiousness)
  - When in doubt, seek counsel before doing what may seem suitable
  - When facing a difficult choice, ask: "Can my act stand in public scrutiny without causing embarrassment to me or my family or my organization?"

Bagchi, S., "The Professional: Defining New Standard of Excellence at Work", Penguin Books India, 2011

Moral Character and Moral Autonomy

Moral Character

- An individual's stable moral qualities[1]
- "A disposition to express behaviour in consistent patterns of functions across a range of situations"[2] — Lawrence Pervin, Psychologist
- Develops based on[3]:
  - Heredity
  - Early childhood experience
  - Modelling by important adults and older youth
  - Peer influence
  - General physical and social environment
  - Communications media
  - Teachings of schools and other institutions
  - Specific situations and roles

1. Wikipedia, "Moral Character", https://en.wikipedia.org/wiki/Moral_character(Accessed: July 20, 2016) 2. Pervin, L., "A Critical Analysis of Current Trait Theory", Psychological Inquiry, 5, pp. 103–113 (1994)
3. Campbell, V.; Bond, R., "Evaluation of a Character Education Curriculum". In D. McClelland (ed.), "Education For Values",Irvington Publishers, NY (1982)

Character, Personality, Attitude, Behaviour

- Character: Based on inherent/ intrinsic qualities and morals; nearly permanent
- Personality: Based on character, physical, psychological, and emotional aspects; seen in behaviour; changes with new experiences and emotionality
- Attitude: Based on personality; seen in evaluations, beliefs, and feelings; changes with new experiences and judgement
- Behaviour: Based on personality and attitude, seen in real-time actions

Moral Autonomy

- "Self-determinant" or "Independent"
- Morals framed through Critical Reflection instead of Passive Adoption
- Decisions and actions exercised on the basis of moral concern for other people and recognition of good moral reasons
- OR
- Skill and habit of thinking rationally about ethical issues, on the basis of moral concern

- Autonomy: Independence in making decisions and actions
- Authority: Freedom for action, specified within limits, depending on the situation
- Moral autonomy and respect for authority can coexist – they are not against each other.

Naagarazan, R.S., "A Textbook on Professional Ethics and Human Values", New Age International Ltd., 2006

Engineering Skills vis à vis Moral Autonomy

- Proficiency in recognizing moral problems in engineering and ability to distinguish as well as relate them to problems in law, economics, and religion
- Skill in comprehending, clarifying, and critically-assessing arguments on different aspects of moral issues
- Ability to form consistent and comprehensive viewpoints based on facts
- Awareness of alternate responses to the issues and creative solutions for practical difficulties
- Sensitivity to genuine difficulties and subtleties, including willingness to undergo and tolerate some uncertainty while making decisions
- Using rational dialogue in resolving moral conflicts and developing tolerance of different perspectives among morally reasonable people
- Maintaining moral integrity

Threats to Moral Autonomy

- Performance appraisals
- Tight time-schedules
- Fear of foreign competition
- Management's attitude
  - Profitability more important than Consistent Quality and Retention of Customers

Naagarazan, R.S., "A Textbook on Professional Ethics and Human Values", New Age International Ltd., 2006

Platform and Purpose

(with case studies)

Dead Bodies and Professionals: Case 1

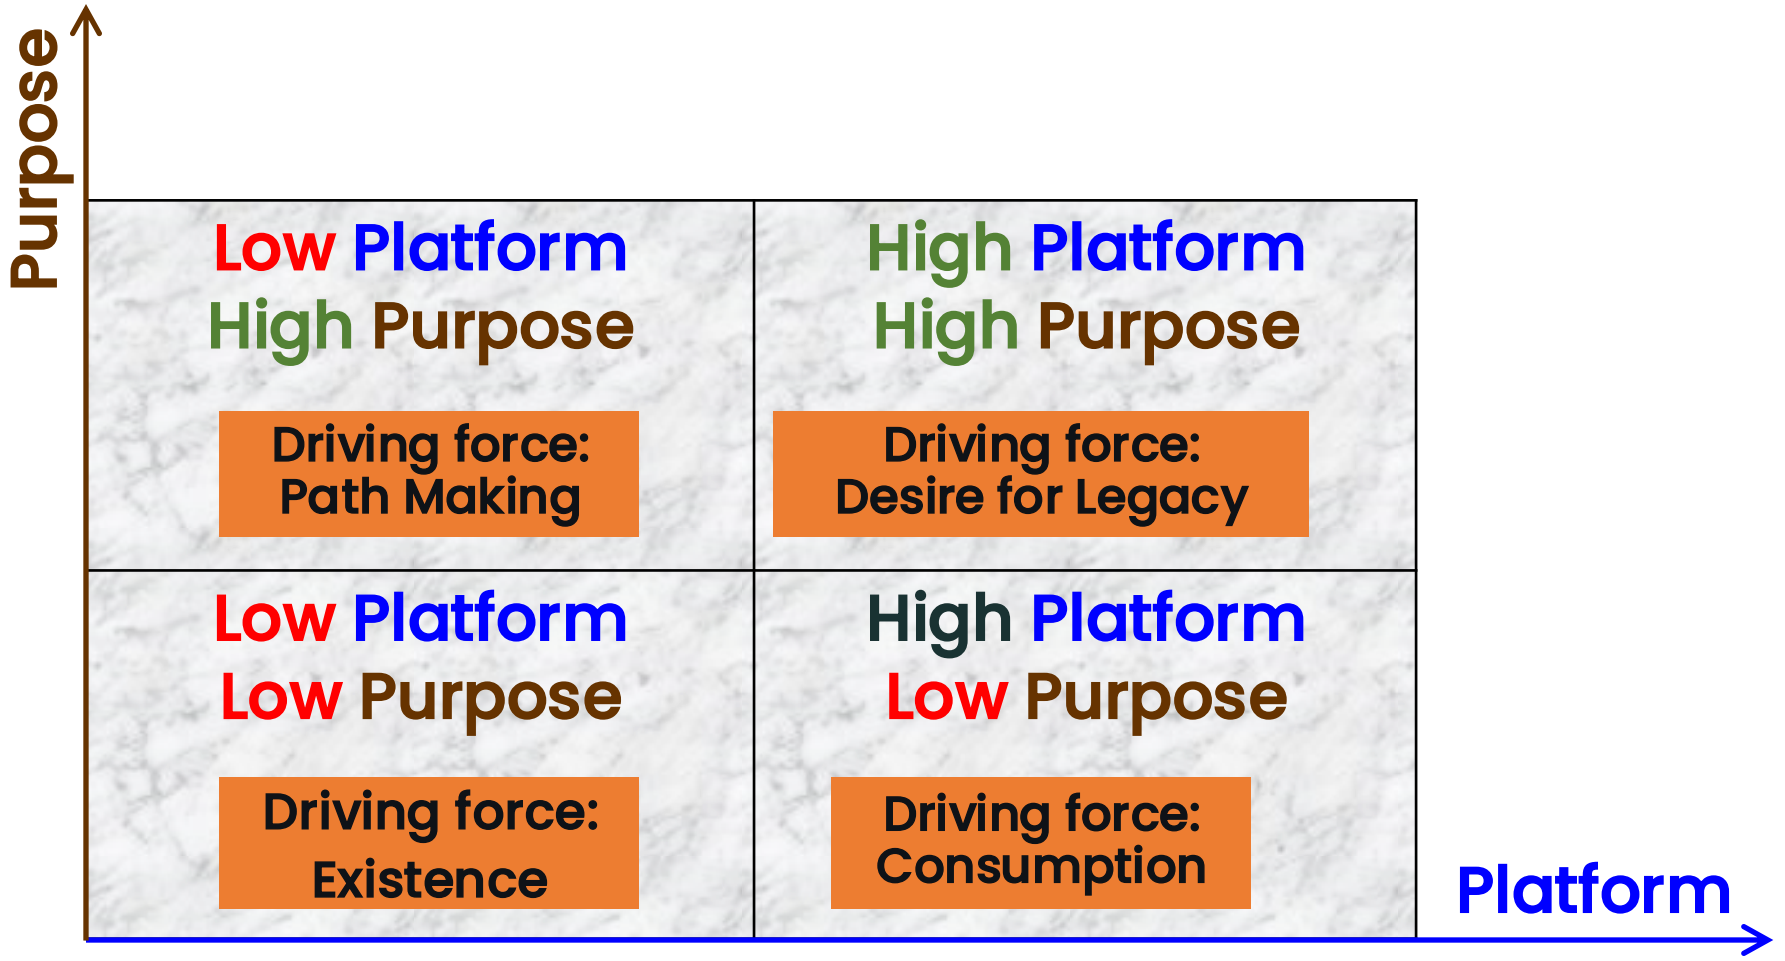

- ***"4 Cops Sell Unclaimed Body, Get Booted Out"***

  – The Times of India, March 31, 2009

- Incident at Madivala, Bengaluru in 2006:
  - Police got a call from a hotel owner about a dead body outside his hotel
  - Policemen picked it up, declared it as that of a mentally retarded man, and sold it to a medical college
  - Dead man's son complained about his missing father
  - Case investigation brought out facts
  - CI, SI, ASI, Constable suspended by the CP

Bagchi, S., "The Professional: Defining New Standard of Excellence at Work", Penguin Books India, 2011

Platform Versus Purpose

Bagchi, S., "The Professional: Defining New Standard of Excellence at Work", Penguin Books India, 2011

Dead Bodies and Professionals: Case 2

- Mahadeva moved to Bengaluru as a kid with his mother
  - Lived on streets – until his mother became sick and got admitted to Victoria Hospital
  - Mahadeva made friends and continued to live around the hospital
  - Mother died, body disposed of by the hospital after three days
  - Did not take pooled money to go back to village
  - An old man who helped the poor gave him shelter and got him errands at hospital
  - Police asked him to bury a unclaimed dead body one day – for ₹200!
  - Became a "regular" – Picked up body, rented a tonga, took them to the graveyard, dug the grave, buried the body
  - Bought an auto rickshaw when the horse died, with pooled money
  - Buried 42,000 corpses so far – Gets free fuel – CM thanked – Son in same job!

Bagchi, S., "The Professional: Defining New Standard of Excellence at Work", Penguin Books India, 2011

Professionalism of Mahadeva

- Ability to work unsupervised – Apprentices/ Amateurs need supervision
- Ability to certify completion of work
- Commitment to work in any climate
- Does not choose "clients" – Respects them too!
- Not an employee – no performance appraisals, none to report to!

- Virtues: Self-governance, Public-Spirited, Team-work, Proficiency, Cardinal
- Role: Social Servant
- Responsibilities: Characteristic Quality, Obligations, Moral Capacity, Accountability, Praiseworthiness
- Characteristics: Conscientiousness, Causal Responsibility, Job Responsibility
- Human Values: Empathy, Integrity, Commitment, Work Ethic, Service, Civic Virtue, Respect for Others, Living Peacefully, Caring, Courage, Valuing Time, Self-Confidence, Character, Spirituality

Trained police personnel in the Madivala case lacked it all!

Ethicality

Civic Virtue

- Civic[1] – from *cīvicus* (Lat.) = citizen (*cīvis*)
  - Of or relating to citizens
- Virtue[2] – from *virtūt* (Lat.) = worth, virtue
- *Moral excellence*
  - *Conformity of one's life and conduct to moral and ethical principles; uprightness*
- *Personal qualities associated with the effective functioning of the civil and political order, or the preservation of its values and principles*[3]
  - Not inherent – needs to be developed[3]
- Performing one's constitutional, individual, and professional duties conscientiously is a part of Civic Virtue
  - Cardinal (Chief) Virtues of Citizens: Justice, Wisdom, Courage, and Temperance (Ref. Professional Virtues)

1. http://www.dictionary.com/browse/civic 2. http://www.dictionary.com/browse/virtue 3. https://www.britannica.com/topic/civic-virtue

Anomie

- Anomie – from *anomía* (Grk.) = a **state or condition of individuals or society characterised by a breakdown or absence of social norms and values**, as in the case of uprooted people
- A state of affairs where the society cannot provide moral guidance anymore
- May be caused by
  - *"…conflict of belief systems"*
  - *"…a mismatch between personal or group standards and wider social standards; or from the lack of a social ethic, which produces moral deregulation and an absence of legitimate aspirations. This is a nurtured condition"*
  - *"…a society with too much rigidity and little individual discretion…"*

https://en.wikipedia.org/wiki/Anomie and references therein

Ethics and Law

- *There is only one ethics, one set of rules of morality, one code that of individual behaviour in which the same rules apply to everyone alike.* – Peter F. Drucker
- Ethical action is that which best serves the ideas of honesty, integrity, morality and good management practices.
- Law can be defined as a consistent set of universal rules that are widely published, generally accepted, and usually enforced.
- Ethics focus on dos. Law emphasizes on don'ts.
- Ethics and Law go hand in hand ideally, but they are independent of each other – certain acts can be legal but not ethical or ethical but not legal too!

Paliwal, M., "Business Ethics", New Age International, 2006; http://amr.aom.org/content/20/2/379

Objectives of Ethics

- To study human behaviour and make an evaluative assessment about them as moral or immoral
  - To establish moral standards and norms of behaviour ("systematise")
  - To make judgment upon human behaviour based on these standards and norms ("defend")
  - To prescribe moral behaviour and recommend dos and don'ts of behaviour ("recommend")

- Ethics help form an opinion or attitude about human conduct in general
- Ethical action is that which best serves the ideas of honesty, integrity, morality and good management practices.

Understanding Ethics through Quotes

- *There is only one ethics, one set of rules of morality, one code that of individual behaviour in which the same rules apply to everyone alike.* – Peter F. Drucker
- *Ethics is the branch of philosophy which is the systematic study of selective choice, of the standards of right and wrong and by which it may ultimately be directed.* – Philip Wheel Wright
- *Supreme oneness is the rationale of all ethics and morality. … Ethics is the degree of faith in oneself.* – Swami Vivekananda

Indian Ethos

Deeper Dive

- Ethical Pluralism: Different value systems, sometimes conflict but may be equally correct and fundamental (Ref. Wikipedia)
- Spirituality
  - *karma* Principle: What goes around comes around (in the "next life", if not right now!) ("Golden Rule")
  - bhagavad-gïta: Freedom ~~from~~ in action
  - *karma* (Deed/ Act) is more important than *karta* (Doer/ Actor)
- Family System
  - Upholding culture and tradition
  - Saving ~~Consuming~~ economy
  - Thinking beyond Self

Deeper Dive: *Karma*

- Exclusivity is the cause of confusion – there are no two entities!
  - The act (*karma*) is not separable from the actor (*karta*)!
  - The Creation is not different from the Creator!
  - The actor cannot see oneself above the act!
  - *karma* and *karta* must form one composite entity for *kriyä-siddhi*
- Presencing™ is in a way a natural extension of the *karma* principle
  - What you do today has implications tomorrow and thus you consider the best possibilities for tomorrow to devise action for today.
  - Presencing™ is to apply Design Thinking for a future timeframe and acting in the present accordingly

Conventional and Constitutional Values

Conventional/ Traditional Values

- *séva* (Service)
- *ahimsa* (Non-violence)
- *swacčhata* (Cleanliness)
- *satya* (Truth), *dharma* (righteous conduct)
- *nishkäma karma* (Action without Desire)
- *Sänti* (Peace), *sahanam* (Tolerance)
- *préma* (Love), *tyägam* (Sacrifice)
- *kshamata* (Forgiveness)
- *paröpakärata* (Helpfulness)
- Respect for Elders
- Respect for all people and their inherent capabilities regardless of background
- Respect for Environment

Constitutional Values

- Scientific Temper & Intellectual curiosity
- Citizenship Values & Life-skills
- Spirit of Service & Courtesy
- Diversity, Pluralism, Gender Sensitivity
- Empathy & Compassion
- Patriotism
- Democratic Spirit/ Outlook
- Respect for Public Property
- Integrity
- Responsibility
- Justice, liberty, equality, and fraternity

National Education Policy 2020: https://aicte.gov.in/sites/default/files/nep2020.pdf

The Indian Ethos – A Lyrical Description

యోగులు సాగిన మార్గమిది, లోకములేలిన దుర్గమిది,

శాశ్వత శాంతుల స్వర్గమిది!

వేదధ్వజఛాయలలో సాగిన భరతావని దిగ్విజయమిది!

yOgulu saagina maargamidi, lOkamulElina durgamidi, SaaSwata Saantula swargamidi!

vEdadhwajaChaayalalO saagina bharataavani digvijayamidi!

This is the Path walked by the Sages
This is the Fort that ruled the World
This is the Paradise of Permanent Peace
This is the Glorious Victory of India,
Held high in the shadows of the Flag of Vedas!

The Indian Ethos –Verses from the Gïtä

విద్యా వినయ సమ్పన్నే బ్రాహ్మణే
గవి హస్తిని
శుని చైవ శ్వపాకే చ పణ్డితాః
సమదర్శినః

(విద్యావినయాలు గల బ్రాహ్మణుని యందునూ, ఛండాలుడు, గోవు, ఏనుగుల యందునూ, శునకమూ, శునక మాంసము వండుకొని తినువాని యందునూ సమదృష్టిగల వాడే పండితుడు.)

vidyaa vinaya sampannE
braahmaNE gavi hastini

Suni chaiva SwapaakE cha
panDitaa@h samadarSina@h

(An individual can be called a "pundit" only if he or she can treat equally a Brahmin with education and obedience and a lowly human being or a cow or an elephant or a dog or someone who cooks and eats the meat of a dog.)

The Indian Ethos –Verses from the Gïtä

న ప్రహృష్యేత్ప్రియమ్ ప్రాప్యనోద్విజేత్ ప్రాప్య
చాప్రియమ్

స్థిరబుద్ధిరసమ్మూఢో బ్రహ్మావిద్బ్రహ్మణి స్థితః

(సుఖాలలో పొంగక, దుఃఖాలకు కృంగక,

స్థిరబుద్ధి కలవాడే బ్రహ్మవేత్త, బ్రాహ్మణుడు అని
తెలుసుకో!)

na prahRshyEt priyam
praapyanO dwijEt cha
apriyam

sthirabuddhirasammUDhO
brahmavidbrahmaNi sthita@h

(A Brahmin is someone who neither feels overjoyed by comfort nor feels gloomy due to sorrows and has a stable mind without delusion.)

The Indian Ethos – Verse from *Hitöpadeśa*

విద్యా దదాతి వినయమ్ వినయాద్యాతి పాత్రతామ్

పాత్రత్వాన్ ధనమాప్నోతి ధనాత్ ధర్మమ్ తతః సుఖమ్

(విద్య వలన వినయం కలుగుతుంది. వినయం వలన పాత్రత సిద్ధిస్తుంది. పాత్రత ధనాన్ని సంపాదిస్తుంది. అటువంటి ధనం ధర్మబద్ధం కావడం వలన సుఖం కలుగుతుంది.)

vidyaa dadaati vinayam
vinayaadyaati paatrataam

paatratwaan dhanamaapnOti
dhanaat dharmam tata@h sukham

(Education gives Humility, that modesty gives deserving, that worth gives money, and money associated with dharma gives comfort/peace.)

https://en.wikipedia.org/wiki/Personal_data

Privacy and Confidentiality

Privacy

- Protects access to individuals
- Protected by a universal human right to privacy of individuals

Confidentiality

- Protects access to information
- Privacy is necessary
- Required in certain professional settings (medical, legal, social, ...)
- Applies only when there is confidence in the information, and is provided in a setting that requires protection/ privacy

Privacy and Confidentiality in Real World

- Breach of privacy can increase risk to individuals at personal and professional levels
- Breach of confidentiality may be considered illegal and can have long-term impact too!
  - Personal data shared with individuals or organisations must have a time limit after which it must be destroyed
    - In today's world, a lot of companies have our personal information and data! Are we confident that it's all used correctly? Do we trust our governments about it?

Moral & Ethical Dilemmas, Ethical Inquiry

Moral Dilemmas: Causes and Origins

- Vagueness
  - Unable to distinguish between good and bad principle
- Conflicting Reasons
  - Two good morals as solutions – which one to choose?
- Disagreement
  - More than one "imperfect" solution – interpret and apply reasons, analyse and rank decisions, select the best-suited under the existing and the most probable conditions

Resolving Moral Dilemmas

- Identifying moral factors and reasons
- Collection of all relevant information, data, and facts
- Rank the moral options – application through value system, obligatory, alright, acceptable, unacceptable, damaging, most damaging, …
- Generate alternate courses of action – matrix/decision-tree of (sub-) options
- Discuss with colleagues – perspectives, priorities, alternatives
- Decide upon final course of action – for "satisfactory" solution if not ideal

Naagarazan, R.S., "A Textbook on Professional Ethics and Human Values", New Age International Ltd., 2006

Ethical Dilemmas

- Very subtly different from moral dilemmas
  - Moral Dilemmas: Dilemmas of principle
  - Ethical Dilemmas: Dilemmas of actionability
- More focus on actions and outcomes and not just the moral principle that drives the action
- When resolving:
  - consider resolution procedure outlined for moral dilemmas
  - consider risks involved, for all stakeholders
  - consider consequences, for all stakeholders
    - Consider Professional Responsibilities and Public-spiritedness
    - Use appropriate Theories of Right Action (Hint: Utilitarianism by itself or in combination with other theories) and Principles of Ethical Action
  - design the inquiries/ questions to gather all necessary information
  - use proven decision-making and decision analysis techniques

Types of Ethical Dilemma

- Epistemic vs Ontological
- Self-imposed vs World-imposed
- Obligation vs Prohibition
- Single-agent vs Multi-agent

https://en.wikipedia.org/wiki/Ethical_dilemma

Types of (Ethical) Inquiry

- Help ethical decision-making
- Complementary and inter-related
- All three types of inquiries may be required in every case
- Normative: To identify the correct way of doing something (*"How is something supposed to be done?"*)
- Conceptual: To clarify definitions, concepts, principles, and issues in engineering ethics (*"What is what?"*)
- Factual: To describe current practices and facts of business pertaining to Value issues (*"What exactly has been done or is to be done?"*)

Normative Inquiries

- Questions about what needs to be done to get the expected ideal response
  - Not based on one's belief of right or wrong
  - About engineering principles, laws, procedures
    - To ensure moral rights are preserved in fulfilling the professional obligations

Conceptual Inquiries

- Questions about the meaning of concepts, principles and issues related to engineering ethics
  - Helps defines safety and acceptability of safety as well as precautions
  - Helps understand ethical compensation vs bribery, *etc.*

Factual (Descriptive) Inquiries

- Questions about finding solutions to value-based issues
  - Scientific techniques are applied to arrive at “facts”
  - Involves understanding of engineering practice, history of engineering profession, effectiveness of professional societies, risk assessment procedures, psychological profiling of engineers, …

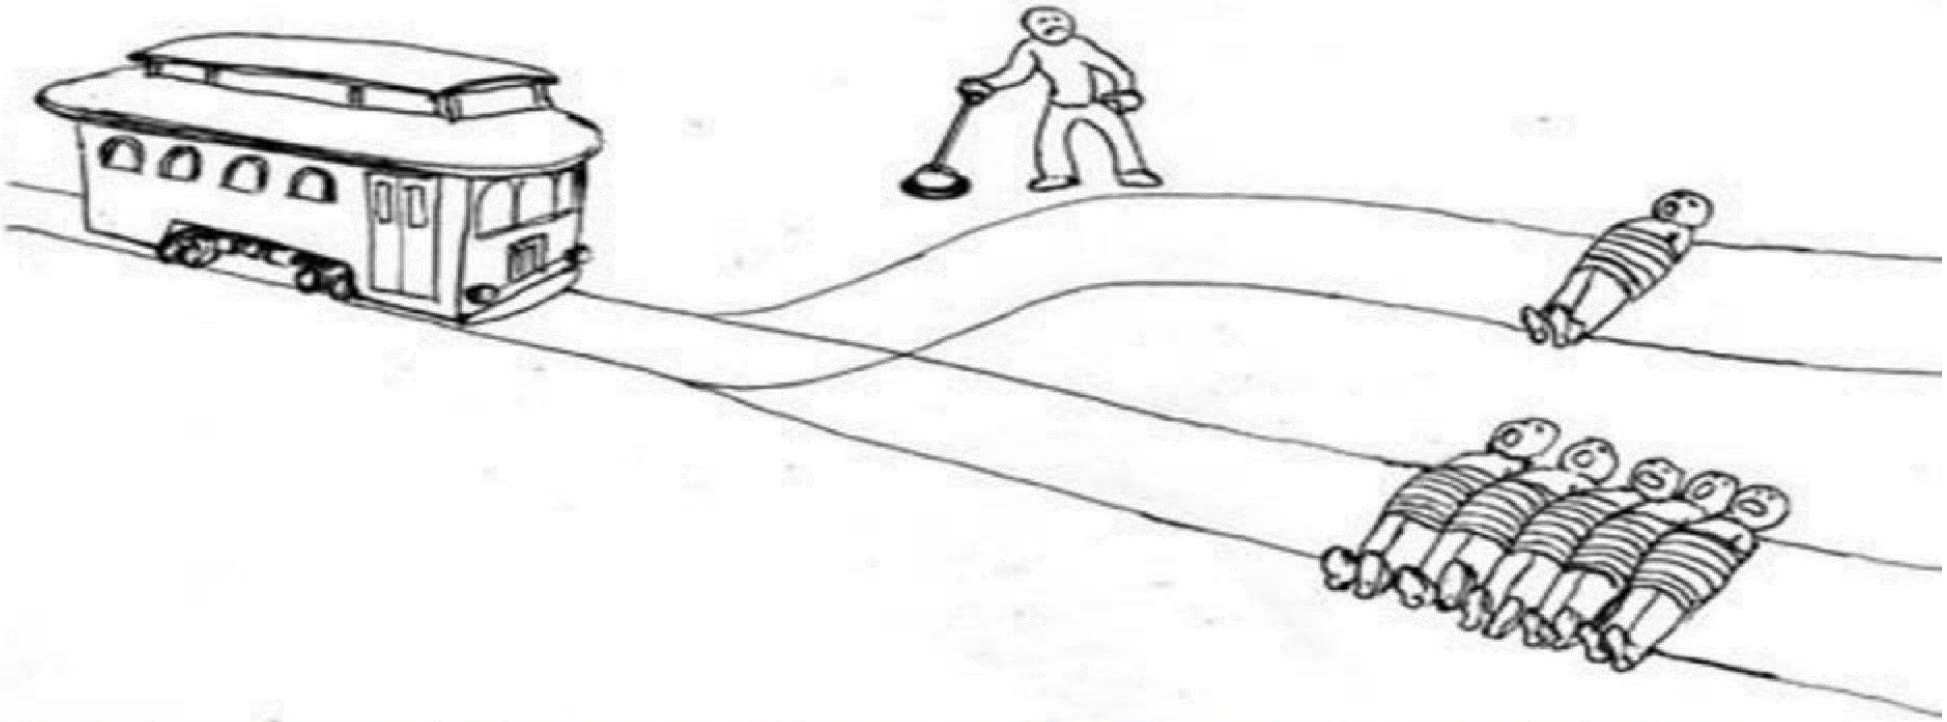

Trolley Problem(s)

Overview

- Refers to making a difficult choice as a “trolley driver”, where either path of action can cause harm to one entity or the other
- Thought experiment: Is it “right to actively inhibit the utility of an individual if doing so produces a greater utility for other individuals”?
- Been discussed since 1905 – relevant even today, in cases like autonomous vehicles

https://en.wikipedia.org/wiki/Trolley_problem

Classic Scenario

You find yourself at a lever. A runaway trolley approaches five people who are tied to a set of tracks. Pulling the lever will divert the trolley to a different set of tracks, where only one person is tied down.

Do you pull the lever?

Value Judgement vs Moral Judgement

Value Judgement

- Judgment based upon a particular set of values or on a particular value system
  - Judgment of the rightness or wrongness of something/someone
  - Comparative usefulness of something/someone
  - Quick evaluation based on available information
- May be narrow in scope ("parochial") because of the particular value system used

Wikipedia, "Value Judgement", https://en.wikipedia.org/wiki/Value_judgment (Accessed: July 14, 2017)

Moral Judgement

- Moral discernment or Moral wisdom
- Thinking if an action, person, institution or state of affairs has a moral attribute
- Capacity to go beyond the application of rules when we deliberate morally
- Requires appropriate sensitivity, beyond all general rules, to determine how it is right to act, think, and feel based on individuality or context
  - Is the judgement based at least partly on a belief or is it non-cognitive?
  - How is the judgement justified?
  - Is the judgement based on application of rules, or is it beyond rules?
  - What is it to possess the virtue of moral judgment?

Cullity, G., "Moral Judgement", https://www.rep.routledge.com/articles/moral-judgment/v-2 (Accessed: July 15, 2017)

Ethics in Academics & Research

Plagiarism

- Plagiarism may imply any of the following[1]:
  - turning in someone else's work as your own
  - copying words or ideas from someone else without giving credit
  - failing to put a quotation in quotation marks
  - giving incorrect information about the source of a quotation
  - changing words but copying the sentence structure of a source without giving credit
  - copying so many words or ideas from a source that it makes up the majority of your work, whether you give credit or not
- Considered "academic dishonesty"[2]
  - Copyright infringement, violation of moral rights
  - Crime in India!

1. https://www.plagiarism.org/article/what-is-plagiarism

2. https://en.wikipedia.org/wiki/Plagiarism

Integrity for Academicians

- Academic integrity is important
  - Academic dishonesty is demotivating and immoral
- Students see teachers as role models!
- Avoid plagiarism
  - Citing an original source is a moral gesture of respect
  - Not citing appropriately can blemish our character!
  - Use images in public domain or with creative commons licence
- Consider ethical implications in all research
- Seek informed consent from all stakeholders impacted by your actions!

Citing Right

- Cite the source!
  - Inquisitive learners can dig more wealth if sources are cited!
- "Common Knowledge" and "Public Domain" do not require citation
  - No exclusive or subsisting copyright; government publications, …
- "Fair use" policy is the best
  - When you know a source, cite it
  - If redrawing an image, mention "Reproduced from" and cite
  - If you are paraphrasing or summarising a unique expression, cite it
  - If you are reproducing text as is, "*quote*" it
  - Even if it's your student work done in/for/through your own class, cite it if using beyond classroom
- Classroom teaching and non-profit education purposes *may not be* considered plagiarism in some cases
  - Still unethical and unfair not to cite sources when you know them
  - Students learn from us: let us set a good example!
